THE LAW OF INDIVIDUAL GROWTH :

What is important is to observe what is actually taking place in our daily life, inwardly and outwardly. To observe, to look, need no philosophy, no teacher, You just look. If you try to study yourself according to another, you will always remain a second-hand human being. We must therefore learn about ourselves, not according to some philosopher because then we learn about him, not ourselves - we must learn what we actually are. Let us start on our journey together with all the remembrances of yesterday left behind and begin to understand ourselves for the first time.

-Jiddu Krishnamurti

Evolution is always experimental. All progress is gained through mistakes and their rectification. No good comes fully fashioned out of god's hand, but has to be carved out, through repeated experiments and repeated failures, by ourselves. This is the law of individual growth..... The right to err, which means the freedom to try experiments, is the universal condition of all progress.
